

Registered Yearling Heifers

Lots 301 - 310

These heifers have been selected to make top of the line cows. Each one is backed by some of the most productive cow families we have.

Express® FP 3-VL5

The ultimate prevention against BVD Persistently Infected Calves...Guaranteed!

NEW!

Approved for use in pregnant cows and in calves nursing pregnant cows previously vaccinated with Express® FP.

- First vaccine line licensed by the USDA-APHIS for the prevention of PI calves caused by BVD Types 1&2
- BVD types 1&2 antigens are fully loaded to maximize BVD titers and provide 90-99% protection against PI calves
- Studies show PI protection against 4 different strains, including BVD Type 1b and Type 2
- Convenient combinations available providing broad reproductive and respiratory protection in one syringe; viral components plus Vibrio-Lepto 5, Lepto 5 and *H. somni* (*Histophilus somni* formerly referred to as *Haemophilus somnus*)
- Proven protection against both cytopathic and non-cytopathic strains of BVD
- Products carry a BIVI guarantee against BVD PI calves being born into a herd — Call 800-325-9167 for full details, restrictions and documentation requirements
