Dear Cattlemen and Friends,

Welcome to the Vandeberghe's Flying V Angus Annual Production sale where we focus on raising high quality, efficient Angus cattle. Plan to attend on Sunday, February 7th for our 10th Annual Sale.

For those of you who are not familiar with us, our program represents 49 years of combined Angus breeding; a herd that we feel has shown tremendous strides in the last 12 years. Through aggressive and rigorous breeding and culling practices, we developed a no-nonsense cowherd that allowed us to implement our long-term plan for the 1st Annual Production sale in 2001. Our cattle are bred for calving ease, fleshing ability, structural soundness, performance, carcass quality, fertility, and eye appeal. We will continue our herd growth with these consistent qualities and practices in mind. These standards only get harsher as we face the new challenges of extreme weather swings, a volatile feeder market and higher feed costs that force the demand of higher feed efficiency. As a cattle breeder, we have strived to keep on top of the every changing requirement of our customers by using the best genetic bloodlines available to us in our program.

Our yearling bulls are always selected from the top cut of the calf crop, based on high performance and quality standards. Prior to our first production sale we tested our bulls against strong competition including the Midland Bull Test where they received top honors for both Average Daily Gain and Weight per day of Age.

These are a truly tested set of bulls, through snow, flood, drought and rain – who said you have to be a mailperson!!

Not only the rate of gain and pounds are considered at Flying V Angus, we are constantly aware of the need to preserve the traditional attributes of the Angus breed; milking, and natural mothering ability. Our aim is to keep a well-balanced program going, always looking for a better herd sire and to incorporate a dependable disposition to our seed stock, always trying to learn a little more about our cattle so that we will be able to better serve you, our customers.

This is a sale worth coming to... It is with great pleasure that we get to host our 10th annual sale, offering 4 Two-year-old herd sires, and 42 yearling bulls this year, only the top 45% of our 2009-purebred calf crop. You may have noticed that our 205-day weights are lighter this year...these bulls truly have been tested. This is due to the inclemental weather these calves have had to endure the entire year, since our calves are raised from birth to weaning with no creep feed, or other feed supplements. These calves have seen tremendous stress through the entire year from 100 inches of snow and extremely cold temperatures, to severe flooding in the spring right into a drought. By mid-August our pastures were gone after less than 2 inches of rain during the season. By the 1st of September when we started receiving the rain, it was late for the pastures to recover. Weaning at the end of September as we always do, took the calves into one of the muddiest messes that we have ever had to deal with. Due to very little grass, mother's milk production was affected. We use a balanced mineral package from Hubbard Feed and the top growth genetics available from the breed, but this can only do so much in a year like this. As I'm sure many of you feel, this is one year for the history books, but also one I would prefer not to repeat any time soon. Our cattle give us a true performance background of both cow and calf, which we feel is even more important in the years to come if these weather patterns continue.

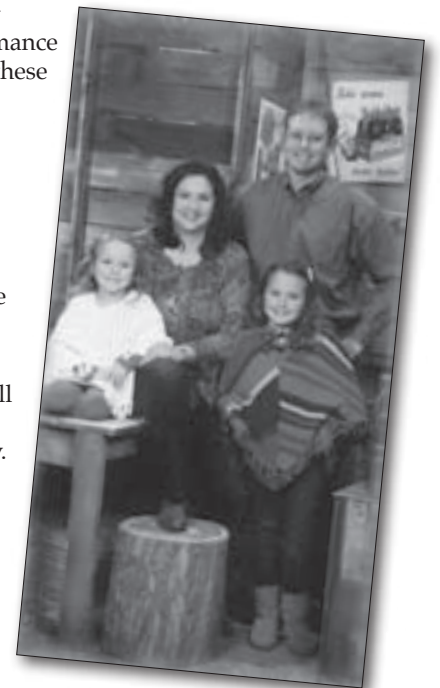

The bulls are developed in a large area on a high roughage ration. The ration consists of high-quality free choice chopped alfalfa-oats hay mix and Purina Accu-Ration for high protein, the essentials of proper muscle growth and development. We also use a balanced mineral package, Vitaferm, to enhance fertility development and feed efficiency. No corn silage is fed. We believe with this development process, we are insuring long-term soundness.

These bulls are guaranteed breeders, but because of the earliness of our sale and the age of the bulls they are not semen tested. We recommend that all of these bulls be tested at least a month prior to use next summer.

We welcome you to our ranch to look over the sale selection prior to the sale. The offering will be at Farmers Livestock Exchange on Friday evening, the 5th of February for your inspection. Thank you for your interest in Flying V Angus. We're looking forward to seeing you on sale day.

Respectfully,
Paul and Lori

**Paul, Lori,
Alexis and
Kelsey**

Please bring this catalog with you to the sale.

- Selling 2/3 interest and full possession. We are interested in having this bull collected prior to delivery at our expense.
- A herd sire candidate that you won't want to miss – another standout and a favorite of ours. A cowman's kind of bull with size, mass and maturity shown at a very early age. Attributes of this bull are moderate birth weight, extra length, mass, volume and performance all combined with a great disposition. A bull that had an actual WW of 765 pounds.
- A pedigree stacked with performance follows this bull with SA Neutron 377 Grandam earning WR 6/103 & YR 4/103. All 5 daughters are retained to our herd.
- A very impressive TC Forman 016 daughter that has proven herself again; this is the same dam from our Lot 1 bull in the 2009 sale. She contributes ultra-feminine features, great udder structure and high performance with easy handling dispositions – all traits of a quality brood cow on our ranch.

- Selling 2/3 interest and full possession. Destine to be a cowmaker. Excellent disposition!
- A bull that offers maternal traits, balance & eye appeal with solid growth, all characteristics of a true ranchers' herd sire. His eye appeal has made him a standout for us.
- Two consecutive pathfinder generations support this bull; 14-year old Pathfinder great-grandam VAP Pride 686 still in production with 5 daughters retained in our herd. Look for her SAV Heritage bull in this 2010 bull offering.
- Another very impressive TC Forman 016 daughter that shows ultra-feminine features, great udder structure and high performance with an easy disposition. This is the 3rd year that the "Forman" daughters have been in production for us, they seem to be a force behind many of our top performing calves. She had a Morgans Direction son sell in our 2008 sale for \$5000 to Wayne Bodvig of Tappen, ND. Her Connealy Contrast daughter is retained to our herd.

- Unique balance of calving ease, growth, and maternal traits are represented in this bull. Our exceptional and influential Miss Pride cow family backs this wide spread performance bull. You can trace this lineage to many of our top females in production today.
- Pathfinder Grandam, Flying V Pride 637 earned WR 7/103 & YR 5/102, before being put down due to a terrible leg injury.
- 15-year old Great-Grandam, VAP Miss Pride 645 earned WR 13/103 & YR 9/102. Longevity is a true trait here! Look for her and another daughters' bulls in the Sitz Upward selection.

- Selling 2/3 interest and full possession. We are interested in having this bull collected prior to delivery at our expense.
- A powerful performance Connealy Thunder son with plenty of eye appeal, growth and length – this bull has an extra rib! One of the many high indexing bulls in this 2009 calf crop. An excellent disposition to complement the package. A bull that had an actual WW of 715 pounds – A definite favorite of ours!
- His 7-year old dam proved her capabilities as a top quality brood cow! She produced one of our top selling bulls in our Flying V 2008 sale, with her TC Gridiron son selling to Richard Nenow Jr. of Streeter, ND for \$4750. Her average sales of \$2865 came from 4 bulls sold in past sales. She displayed exceptional udder quality and a gentle disposition. This will be her last sale offering, as we had to put her down 3 weeks prior to weaning due to a spinal injury. She never produced a daughter.

- Bull comes highly recommended for use on heifers.
- A Connealy Thunder son that should not be over looked. He was a little sick from the pre-weaning shots, so instead of gaining he lost some weight. He is a well-muscled bull with rock-solid genetic background. He is a very clean bull; this bull combines calving ease and style.
- Pathfinder dam is a heavy milking brood cow with 2 daughters retained in our herd and 2 sons sold in past sales with an Avg. of \$1800. Dam transmits easy fleshing abilities, beautiful udder structure and a quite disposition.
- Easy fleshing Granddam recorded a WR of 106 on 6 calves.

- He is a well-balanced Thunder son full of style with many of his characteristics transmitted to him from his Onward dam. Maternal pedigree that can't be passed over if you retain females.
- Grandam "1363" has produced 4 elite females retained to our herd. Connealy Contrast son sold in our 2009 sale for \$2000 to Rich Reinke of Lisbon, ND. Pathfinder, Great-Grandam "918" was feminine, beautifully uddered and can be traced back to 14-year old Pathfinder "686" still in production with 5 daughters retained. 3/4 brother to Lot 13.

- Bull comes recommended for larger framed heifers.
- A powerhouse Heritage herd sire prospect. A deep, massive, high capacity bull that will give his off spring an edge on feed efficiency. This bull has a stacked pedigree of performance - a bull that had an actual WW of 695 pounds.
- Pathfinder Dam has earned a BR of 7/92 and is a deep, high-capacity, brood cow with strong proven material traits from past herd sire WW Traveler 58 purchased from Midland Test for \$10,250.
- Make sure you look for this guy on sale day, he is a definite favorite of ours!

- This powerful Heritage son is packed maternal characteristics in his pedigree. He displays exceptional length, and style. Destine to be a cow-maker.
- A very impressive TC Forman 016 daughter that shows ultra-feminine features, great udder structure and high performance with an easy disposition. She produced an Image Maker son that sold in our 2009 sale for \$3500 to Randy Black of St Anthony, ND.
- 14-year old Pathfinder Grandam "56" has earned a WW ratio of 11/107 and due again this spring. 3 daughters are retained to our herd; another sold in our 2007 Flying V sale for \$2400 to Bill Trautman, Bismarck, ND.

- Selling 2/3 interest and full possession.
- A promising Heritage son who will contribute bone, extra length, capacity and performance to your herd by converting grass to pounds. A bull that had an actual WW of 745 pounds. A bull that we have liked over the course of the whole year.
- Our influential Miss Pride cow family is at work here; you can trace this lineage to many of our top females in production today. Dam had sons sell in the 2008 & 2009 sales, with 2 daughters retained to our herd.
- Pathfinder Grandam "637" earned WW & YW ratios of 7/103 & 5/102, before an injury. Multiple replacement daughters & granddaughters are at work in our herd.
- 15-year old Great-Grandam, "645" earned WW & YW ratios of 12/103 & 8/103, with four daughters retained in our herd. Longevity is a true trait here! Her son and another daughters' son are also in the 2010 Upward selections.

- A herd sire prospect loaded with qualities that will add value to his off-spring. A genuine beef bull with a powerful combination of length, muscle and thickness - this bull offers maternal strength. We like this bull.
- 14-year old Pathfinder Dam "686" is still in production with 5 daughters retained in our herd. You can find her supporting genetic backgrounds of 5 other bulls being sold today. Dam is truly a proven performance female with a great udder structure and disposition. She has earned a calving interval of 364 on 12 calves. She is due again in February.

- A massive performance bull that will be a strong genetic contributor to adding pounds to his offspring.
- Dam that consistently puts it together year after year - she has a progeny scan ratios %IMF 2/125, Ribeye 2/103, earned on an Onward son sold in our 2008 sale and a Shear Force son sold in 2009 for \$3200 to Richard Nenow of Streeter, ND. Her only daughter is in production in our herd with an earned WW ratio of 4/106 - this was with a set of late March twin steers she weaned off this fall, over 1100 lbs of calf.

- A big, high capacity beef bull with the growth genetics to produce market topping feeder calves and good replacement quality daughters. He is thick in the quarter and wide across the top; he has plenty of eye appeal that caught our attention all season.
- Traveler 004 dam is a deep-bodied brood cow with strong genetic contributors in every trait; displays a nice udder structure and easy fleshing abilities. Larks Canyon Grandam earned WR 3/101 & 2/102.

10th Annual
Production Sale

46 Head Sell

4 Two-year-old Herd Sires

42 Performance Tested Yearling Bulls

with Complete Performance, EPD and Ultrasound Info,
Non-Creep. Details Available On Free Delivery.

SALE DAY PHONES:

SALE DAY PHONES:
Farmers Livestock Exchange:
701-223-6550 or 1-800-932-8868 (Toll Free North Dakota ONLY)
Vandeberghe's Cell Phone: 701-320-1275
Vandeberghe's Calving Barn: 701-763-6180

AUCTIONEER:

Craig Conover (712) 882-1303

LIVESTOCK PUBLICATION REPRESENTATIVES:

Terry Robinson . . . (701) 471-5153. . Farm & Ranch Guide
Vern Frey (701) 721-0344. . American Angus Association

BUYERS:

Those unable to attend the sale may send their bids to the Regional Manager, Field Representatives or Auctioneer.

TERMS AND CONDITIONS:

Cattle will sell under the standard Terms and Conditions as recommended by the American Angus Association.

MORTALITY INSURANCE:

It is recommended that buyers insure their purchases for safe delivery. Purchaser assumes the risk of death and injury to their livestock immediately after the sale. Please contact Craig Conover or Terry Robinson to assist you with mortality insurance for your purchases on sale day.

Wintering:

Arrangements can be made for wintering of your animals. It will be a cost of \$85.00 per head to be paid at the time of the sale to winter your purchases. They will then be delivered after the 1st of April. We will care for your bulls as if they are our own, but we encourage you to insure against any unexpected losses that may occur to your bulls.

HERD HEALTH:

Proper health certificates for immediate shipment will accompany all cattle. All animals have had a complete vaccination program. Bulls vaccinated with Bovi-shield GOLD 5, One Shot and Utrabac 7. Bulls weaned and weighed with booster shot of Resvac 4/Somubac. All animals have had Dectomax for lice, grubs and worms. Herd health program all under the Steele Veterinary Clinic.

ADDITIONAL YEARLING INFORMATION:

A flyer will follow shortly before the sale with the adjusted yearling weight ratios that are to be taken late January 2010 along with scrotal information.

SUPPLEMENTAL INFORMATION:

Asupplemental sheet will be available on sale day with additional ultrasound data on the bulls. Bull ultra sounding done by Jason McLennan, Inc.

FOOD AND REFRESHMENTS:

A complimentary lunch will be served at noon.

FREE DELIVERY:

Free delivery on bulls to central stockyard points in North Dakota and adjacent states. Free delivery to your ranch on bulls purchased within 350 miles with the combined purchase of \$4,000 for any one buyer.
